§ 25.104 *Special provisions.* (a) An employee promoted, repromoted, or transferred to a higher grade between Classification Act positions, shall receive basic compensation at the lowest rate of such higher grade which exceeds his existing rate of basic compensation by not less than one-step increase of the grade from which he is transferred or promoted, unless a higher rate is authorized under the provisions of § 25.103 (b). If there is no rate in such higher grade which is at least a one-step increase above his existing rate of basic compensation, he shall receive the maximum scheduled rate of such higher grade, or his existing rate, whichever is the higher.

(b) Under the authority of sections 802, 1101, and 1105 (b) of the Classification Act of 1949, establishment of initial salary rates of basic compensation for employees who on an effective date specified by the Commission under section 1105 (b) of the Classification Act of 1949 occupy positions under that act which immediately prior to October 28, 1949, were exempt from the Classification Act of 1923, as amended (including positions in grade 9 of the professional and scientific service or in grade 16 of the clerical, administrative, and fiscal service referred to in section 13 of such act), shall be as follows:

(1) If the employee is receiving a rate of basic compensation less than the minimum scheduled rate of the grade in which his position is placed, his compensation shall be increased to the minimum rate.

(2) If the employee is receiving a rate of basic compensation within the range of salary prescribed for the grade in which his position is placed, at one of the rates fixed therein, no change shall be made in his existing rate.

(3) If the employee is receiving a rate of basic compensation within the range of salary prescribed for the grade in

which his position is placed, but not at one of the rates fixed therein, his compensation shall be increased to the next higher rate.

(4) If the employee is receiving a rate of basic compensation in excess of the maximum scheduled rate for the grade in which his position is initially placed, no change shall be made in his existing rate.

(5) After salary rates have been initially established, an employee may subsequently receive an increase in compensation by reason of the operation of Titles V and VII, section 802 (b) of Title VIII, or Title X. An employee whose salary was initially established under the foregoing provisions in a position which is later changed to a lower grade without material change of duties and responsibilities, shall be paid at the rate he received immediately prior to the date his position became subject to the act, or at a higher rate authorized by the provisions of § 25.103.

(6) The rate of basic compensation of a subsequent appointee to such position shall be fixed in accordance with the other applicable provisions in this subpart.

(c) If, by virtue of section 604 (b) (11) of the Classification Act of 1949, an employee is receiving a rate of basic compensation which is in excess of the appropriate new maximum rate of the grade of his position, he shall continue to receive not less than such rate so long as he remains in the same position and grade.

(1) The rate of basic compensation of a subsequent appointee to such position shall be fixed in accordance with the other provisions in this subpart.

PART 603—BEANS, DRY EDIBLE

FARM ACREAGE ALLOTMENTS FOR 1950 CROP

The regulations issued by the Acting Secretary of Agriculture with respect to farm acreage allotments for the 1950 crop of dry edible beans (15 F. R. 651) are amended by adding the following sections:

§ 603.213 *National bean acreage allotment.* The National acreage allotment for the 1950 crop of dry edible beans of the allotment classes listed in § 603.201 shall be apportioned as follows:

(a) Among States for which official Department of Agriculture estimates of total acreages of dry edible beans are available, on the basis of the acreage planted to beans of the allotment classes during the three year period 1947 through 1949, adjusted for trend. Since the official estimates do not show dry edible bean acreages by classes, determinations of acreages planted to allotment classes are based upon such data as are otherwise available.

(b) Among States for which official estimates of total dry edible bean acreages are not available, on the basis of the acreage reported to county committees by the individual producers as having been planted to beans of allotment classes during the three year period 1947 through 1949, adjusted for trend.

(c) Adjustment for trend is effected by averaging the acreage planted to beans of allotment classes in 1949 with the average acreage planted to beans of allotment classes during the three year period 1947 through 1949.

§ 603.214 *State acreage allotments*—(a) *For States for which official estimates are available.*

The State acreage allotments for these States will be announced at a later date.

The Joint Procurement Regulations formerly published as Parts 801 to 813, inclusive of Chapter VIII, Title 10, are amended by changing §§ 803.102-2, 803.-102-3 (a) (2) and (3), and 803.102-4; by changing the words "Current Procurement Branch, SS&P Division, General Staff, U. S. Army," appearing in § 803.-110-1, to read "Procurement Information Center, Office of The Assistant Secretary of the Army, Washington 25, D. C."; by changing the reference "PC-13 (Rev. 6/48)" appearing in the first sentence of § 809.601-2, to read "PC-13 (Rev. 1/50)"; by changing § 809.603-3 (a); and deleting the last sentence of § 810.201-3 as follows:

§ 803.102-2 *Specifications authorized for procurement.* The following types of specifications are authorized for procurement, in the order of preference as listed:

(a) Federal specifications;

(b) Military (MIL, JAN) specifications;

(c) Air Force-Navy aeronautical specifications;

(d) Uncoordinated military (MIL) specifications;

(e) United States Army specifications;

(f) United States Air Force specifications;

(g) Navy specifications;

(h) Tentative specifications;

(i) Other Government departmental specifications;

(j) Purchase descriptions.

§ 803.102-3 *Use of tentative specifications.* (a) * * *

(2) Those required for the current military procurement program, provided the applicable tentative specification is actually in process of conversion to a military or Federal specification;

(3) Those required for components, spare parts, or materials required for maintenance of existing stocks of matériel or for items required for maintenance and operation of established installations.

* * * * *

§ 803.102-4 *Description in lieu of specifications*—(a) *Spare parts.* The use of purchase descriptions in lieu of specifications is authorized for procurement of spare parts necessary for the maintenance of existing stocks of materiel or for items required for maintenance and operation of established installations.

(b) *Supplies other than spare parts.* If the item required is not covered by an authorized specification, and preparation of a specification is not justified, a drawing or a description containing all of the essential requirements to be met by the article will be used instead. If, because of technically involved construction, or other sufficient reasons, such description cannot be made, the name of one or more makes of the item, including the words "or equal," will be specified so as not to limit competition to the particular makes named. This action is authorized as an expedient only, and is not considered normal procedure. Repeated use of this practice for the purchase of any item indicates a need for a specification and will be reported to Director of Logistics Division, General Staff, United States Army (Attention: Standards Branch, Procurement Group), in the case of the Army, and the Commanding General Air Matériel Command, in the case of the Air Force.

§ 809.603-3 *Furnishing of forms to contractors (Applicable only within Department of the Air Force)*—(a) *Posters (Form PC-13).* Contracting officers are responsible for seeing that contractors who are awarded contracts subject to the Walsh-Healey Public Contracts Act are furnished Posters (Form PC-13) (Rev. Jan. 50) simultaneously with the making of award, or as soon thereafter as possible. If it is known that contractor was furnished posters within a recent period, it is not necessary to furnish new ones with each contract. All copies of previously issued posters which bear a revision date other than January 1950 must be destroyed and replaced by that revised issue. The forms may be requisitioned from the appropriate air matériel area, which will obtain them from the Wage and Hour and Public Contracts Divisions, Department of Labor, Washington 25, D. C.

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Hotel Sinton, Cincinnati, Ohio, beginning at 10:00 a. m., e. s. t., March 13, 1950, for the purpose of receiving evidence with respect to proposed amendments to the tentative marketing agreement as heretofore approved and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area (7 CFR, 965.1 et seq.). The amendments proposed have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic conditions which relate to the proposed amendments hereinafter set forth:

The following amendments have been proposed by the Cincinnati Sales Association, Inc.:

Proposal No. 1. Delete § 965.2 (e), (f), (g), and (i) and substitute therefor the following:

(e) "Producer" means any person operating a Dairy Farm, producing milk under a Dairy Farm Permit issued by an appropriate health authority, which is received at a "Pool Plant" described under paragraph (f) of this section, or handled by a cooperative association under conditions set forth under paragraph (i) of this section: *Provided,* That any producer whose milk has been approved as "Grade A milk" by an appropriate health authority for any month, or portion thereof, shall be a "Grade A producer" for such month, and any producer whose milk has not been so approved shall be a "Grade B producer."

(f) "Pool plant" means (1) a fluid milk plant located in the marketing area or (2) such plant located outside the marketing area and disposing of not less than 10 percent of its entire route disposition of Class I milk on routes operating wholly or partially within the marketing area, and (3) a plant receiving milk from dairy farms which the market administrator determines has moved to a pool plant(s) described under subparagraph (1) of this paragraph an amount of milk in excess of transfers of milk from the receiving plant(s) to plants outside the marketing area equal to not less than 50 percent of the total receipts of milk from dairy farms described under paragraph (e) of this section in the preceding months of October, November, December, and January: *Provided,* That such plant shall be a pool plant in any of the months of November, December, and January if such amount of milk is so moved in the current month and each preceding month following September.

(g) "Route" means a delivery (including a sale from a store) of milk, flavored milk drinks, or cream in fluid form to a wholesale or retail stop(s) other than to a fluid milk plant(s) or to a plant(s) manufacturing milk products.

(h) "Fluid milk plant" means a plant or other facilities used in preparation or processing of milk all or a portion of which is disposed of on routes operating wholly or partially in the marketing area.

(i) "Handler" means any person who: (1) Operates a pool plant; or (2) operates a non-pool plant and either directly or indirectly disposes of Class I and/or Class II milk, on a route extending into the marketing area; or any cooperative association with respect to the milk or any producer(s) whose milk has been received previously at a pool plant described under paragraph (f) of this section, which milk has been caused to be delivered by a cooperative association, to a plant from which no milk is disposed of in the marketing area, if payment therefore has been collected by such association, and such milk shall be deemed to have been received from producers by such cooperative association. "Handler" shall not include any person who handles only milk of his own production and/or milk received from other handlers.

(j) "Emergency milk" means milk, or skim milk in excess of Class III uses of skim milk, received by a handler from sources other than producers or other handlers, under a permit to receive such milk or skim milk issued to him by proper health authorities during delivery periods when producer receipts of the individual handler are less than 120 percent of such handlers Class I and Class II utilization.

Proposal No. 2. Add to § 965.3 (c) the following subparagraph:

(8) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(i) On or before the 5th day after the end of such month, the minimum class prices computed pursuant to § 965.6, and

(ii) On or before the 20th day after the end of such month the uniform price computed pursuant to § 965.7, and the butterfat differential computed pursuant to § 965.9 (a) (1).

Proposal No. 3:

1. Delete § 965.4 (a) (2), (3), (4), (5) and (6) and (b) and substitute therefor the following:

(b) Each person, other than a handler, who operates a fluid milk plant shall make reports to the market administrator at such times and in such manner as the market administrator may request.

(c) *Records and facilities.* Each handler and other persons required to make reports to the market administrator shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of all of his operations and such facilities as, in the opinion of the market administrator are necessary to verify reports, or to ascertain the correct information with respect to (1) the receipts and utilization of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (2) the weights and tests for butterfat, and for other contents, of all milk and milk products handled; and (3) payments to producers and cooperative associations.

2. Change the designation of paragraph (c) of § 965.4 to (e).

Proposal No. 4. Delete §§ 965.5 and 965.6 and substitute therefor the following:

§ 965.5 *Classification of milk*—(a) *Basis of classification.* Milk received by each handler, including milk produced by him, shall be classified by the market administrator in the classes set forth in paragraph (b) of this section, subject to the provisions of paragraphs (c) (d), and (e) of this section.

(b) *Class of utilization.* The classes of utilization of milk and butterfat shall be as follows:

(1) Class I shall be all milk and/or skim milk disposed of in the form of milk and milk drinks and any product not specified in Class II or III milk, containing less than 8.0 percent butterfat and all unaccounted for butterfat in excess of 2½ percent of receipts of butterfat from producers and emergency milk.

(2) Class II shall be all milk used to produce buttermilk, cottage cheese, cream for consumption as cream, whipped cream or whipped cream substitute, egg nog, and any cream or milk mixture containing 8.0 percent or more of butterfat, not specified in Class I or III.

(3) Class III milk shall be all milk (i) used to produce (*a*) plain or sweetened condensed or evaporated milk, (*b*) spray or roller powder, (*c*) margarine, (*d*) ice cream, ice cream mix and frozen desserts, (*e*) animal feed, (*f*) cheese except cottage cheese, (*g*) butter, (*h*) commercially manufactured candy; (ii) dumped or spilled (subject to approval of market administrator) and shall include inventory variations, and butterfat not accounted for to the extent of 2½ percent of total receipts of butterfat from producers and emergency milk.

(c) *Responsibility of handlers and reclassification of milk.* (1) In establishing the classification as required in paragraphs (b) and (d) of this section, the burden rests upon the handler to account for all milk and milk products received by him and to prove to the market administrator that such milk, or milk products, should not be classified as Class I milk.

(2) Any milk or milk product classified in one class shall be reclassified if such milk or milk product (or product thereof) is later used or disposed of by any handler in another class, in accordance with such later use or disposition.

(d) *Interhandler and nonhandler sales.* Milk or skim milk disposed of by a handler to another handler or to another person who is not a handler but who distributes milk or manufactures milk products shall be classified as Class I and cream so disposed of shall be Class II: *Provided,* That if the transferring handler on or before the tenth day after the end of the delivery period furnishes to the market administrator a statement, which is signed by both the transferring handler and the receiver, that such milk, skim milk, or cream was used in a lower class, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator: *And further provided,* That, in making such verification for months other than April, May, June and July, the market administrator will assign milk, skim milk or cream so transferred to the highest gross classification of the receiver.

(e) *Computation of milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and for obvious errors the delivery period report submitted by each handler and compute the total pounds of milk and butterfat respectively, in Class I milk, Class II milk and Class III milk, for such handlers.

(f) *Allocation of milk and butterfat classified.* (1) The pounds of milk and butterfat remaining in each class after making the following computations shall be the pounds of milk and butterfat respectively in such class allocated to producer milk:

(i) The pounds of milk in Class III shall be decreased by any excess of utilization of all classes over total receipts and shall be increased by any excess of total receipts over total utilization of all classes.

(ii) Subtract from the pounds of milk and butterfat in each class, the pounds of milk and butterfat respectively received from other handlers, in the classes transferred pursuant to paragraph (d) of this section.

(iii) Subtract from the remaining pounds of milk and butterfat respectively in series beginning with the lowest priced class available, the pounds of milk and butterfat respectively, except emergency milk, received from sources other than producers or handlers.

(iv) Subtract pro rata out of the remaining pounds of milk and butterfat respectively in each class, the total pounds of emergency milk and butterfat.

(v) If the remaining pounds of butterfat in all classes exceed the pounds of butterfat received in producer milk, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest priced class.

§ 965.6 *Minimum class prices*—(a) *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum prices for milk provided in this section shall be the highest of the prices computed by the market administrator pursuant to subparagraphs (1) and (2) of this paragraph:

(1) The market administrator shall compute (to the nearest tenth of a cent) an average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator by the U. S. D. A. or by the companies listed below:

Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) Multiply by 3.5 the average price per pound of Grade A (92-score) butter at wholesale in the Chicago Market, as reported by the U. S. Department of Agriculture for the delivery period during such month, and add 20 percent thereof;

(ii) From the simple average of the weighted average of carlot prices per pound of spray and roller process nonfat dry milk solids for human consumption, f. o. b. manufacturing plants in the Chicago Area as published for such month by the U. S. Department of Agriculture, deduct 5.5 cents and multiply the result by 8.5, and multiply by .965.

(b) *Class prices.* Each handler shall pay, at the time and in the manner set forth in § 965.8, not less than the following prices per hundredweight, on the basis of milk of 3.5 percent butterfat content for the respective quantities of milk in each class computed pursuant to § 965.5 (e) and (f).

(1) The price for Class I milk shall be the basic formula price plus $1.05 for the delivery periods of April through July and $1.35 for the delivery periods of August through March.

(2) The price for Class II milk shall be the price for Class III milk plus $0.60 for the delivery periods of April through July and $0.90 for the delivery periods of August through March.

(3) The price for Class III milk shall be the basic formula price.

(c) *Butterfat differential to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent, there shall be added to or subtracted from as the case may be, the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows: Determine the percent of the alternate basic formula price as computed pursuant to paragraph (a) (2) of this section represented by sum computed pursuant to paragraph (a) (2) (i) of this section; apply the percentage so determined to the respective class prices for 3.5 percent milk computed pursuant to paragraph (b) and divide by 35, the resulting sum (to the nearest hundreth of a cent) shall be the handler differential for each class respectively.

(d) *Computation of the value of milk for each handler.* (1) For each delivery period the market administrator shall compute the value of milk for each handler as follows:

(i) For each handler operating a pool plant, multiply the hundredweight of producer milk in each class, computed in accordance with §§ 965.5 (d), 965.5 (e) and 965.5 (f), by the respective class price for 3.5 percent milk, subject to the butterfat differential provided by paragraph (c) of this section: *Provided,* That for the months of May, June and July, each handler shall receive a credit computed at the rate of 5 cents for each pound of butterfat used to produce butter in excess of butterfat received from sources other than producers.

(ii) Computation of obligation to the producer-settlement fund for handlers operating a fluid milk plant which is not a pool plant: For each delivery period, the obligation to the producer-settlement fund for each such handler shall be computed by the market administrator by multiplying the hundredweight of milk and/or milk products disposed of by such handler within the marketing area as any item included in Class I or Class II by multiplying the hundredweight of such milk or cream by the difference between the Class III price at test and the price applicable to the class price at test in which it was disposed.

(iii) Add together the resulting amount.

(iv) If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payment due the producer-settlement fund or the handler for any previous delivery period, there shall be added or subtracted as the case may be, the amount necessary to correct such errors.

(e) *Notification to handler of the value of his milk.* On or before the thirteenth day after the end of each delivery period, the market administrator shall bill each handler for the value of milk computed for him in accordance with paragraph (d) of this section.

Proposal No. 5. Delete § 965.7 (a) (1) and substitute therefor the following:

(1) Add together the values of milk as computed in § 965.6 (d) for all handlers;

Proposal No. 6. Delete § 965.7 (a) (4) and substitute therefor the following:

(4) Add the cash balance in the producer-settlement fund not reserved for payment under § 965.12 (b);

Proposal No. 7. Delete § 965.7 (c).

Proposal No. 8. Delete § 965.10 and substitute therefor the following:

§ 965.10 *Expense of administration*—(a) *Payments by handlers.* As his pro rata share of expense incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler shall pay the market administrator, on or before the 17th day after the end of each delivery period, 2 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to all milk received from producers and produced by him during the delivery period: *Provided,* That any cooperative association which had handled milk during the delivery period under the conditions set forth in § 965.2 (f) shall pay such pro rata share of expense of administration on only that quantity of milk so handled.

Proposal No. 9. Delete § 965.13 (b) (c) and (d) and substitute therefor the following:

§ 965.15 *Suspension or termination*—(a) *When suspended or terminated.* Whenever the Secretary finds this part or any provision thereof obstructs or does not tend to effectuate the declared policy of the act, he shall terminate or suspend the operation of this part or any such provision thereof.

(b) *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

(c) *Liquidation.* Upon the suspension of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

Proposal No. 10. Delete § 965.15 and substitute therefor the following:

§ 965.17 *Separability of provisions.* If any provision hereof, or its application to any person or circumstances is held invalid the application of such provisions and of the remaining provisions hereof to other persons or circumstances shall not be effected thereby.

The following amendment has been proposed by the Dairy Branch, Production and Marketing Administration:

Proposal No. 11. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the tentatively approved marketing agreement, and the order, as amended, now in effect may be procured from the Market Administrator, 152 East 4th Street, Cincinnati 2, Ohio, or from the Hearing Clerk, United States Department of Agriculture in Room 1353, South Building, Washington 25, D. GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 1st day of March 1950.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), by General Public Utilities Corporation ("GPU"), a registered holding company. Declarant has designated sections 6 (a), 7, 12 (c) and 12 (e) of the act and Rules U-42 and U-62 thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than March 13, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after March 13, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of the Commission for a statement of the transactions therein proposed which are summarized as follows:

(1) GPU proposes to amend its certificate of incorporation so as to provide that in the event any of its stock shall be issued for cash pursuant to (a) a public offering, or (b) an offering to or through underwriters, security dealers, or brokers who shall have agreed promptly to make a public offering thereof, the holders of the company's common stock shall have no preemptive or other rights to subscribe for shares of the stock so issued. The board of directors may, however, in its discretion, make any offering, or any part thereof, to the holders of common stock of the company in the first instance.

(2) Under the laws of New York, the above proposed amendment to GPU's certificate of incorporation must obtain the favorable vote of the holders of two-thirds of the company's outstanding shares entitled to vote thereon at the annual meeting to be held on May 1, 1950. Any holder of record may, in the event the requisite vote is obtained, receive from the company the cash value of his shares as determined by appraisers appointed by a court if, prior to the annual meeting, he files in writing an objection to the proposed amendment and demands payment for his shares. In the event the holders of more than 25,000 shares of GPU's common stock make such objection and demand, the holders of the proxies which GPU proposes to solicit will not vote on said amendment.

(3) GPU proposes, from time to time, to sell on the New York Stock Exchange at the then market prices some or all of the shares acquired as noted above: *Provided*, That the aggregate public offering price of the shares thus sold will not exceed $300,000.

(4) GPU proposes to eliminate from its authorized capital stock an aggregate of 107,000 shares of its $5 par value common stock now held in its treasury as reacquired shares and to reduce the aggregate par value of its capital stock by $535,000. Before this reduction may be effectuated it must be approved by the holders of a majority of the company's outstanding common stock and GPU proposes to seek such approval at the annual meeting to be held on May 1, 1950.

Declarant states that no commission, other than this Commission, has jurisdiction over the proposed transaction.

Declarant requests that the Commission's order permitting the declaration to become effective be issued as soon as possible and be effective forthwith.

By the Commission.

BANKERS SECURITIES CORP.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C. on the 2d day of March A. D. 1950.

Notice is hereby given that Bankers Securities Corporation ("Bankers") has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order of the Commission exempting Bankers from the requirements of Rule N-17F-2 (d) of the general rules and regulations under the act so as to permit three junior officers in addition to the presently designated five senior officers to have access to its securities deposited in a vault on its premises.

Rule N-17F-2 (d) provides in effect, that no person shall be authorized or permitted to have access to the securities and similar investments deposited by a registered management investment company under Rule N-17F-2, except pursuant to resolution of the board of directors and such resolution shall designate not more than five persons who shall be either officers or responsible employees of such company and shall provide that access to such investments shall be had only by two or more such persons, jointly, at least one of whom shall be an officer.

Bankers is a closed-end, non-diversified management investment company and is registered under the act. It represents that it has provided by resolution of the board of directors for access to its securities and similar investments (deposited in its vault pursuant to an exemption of the Commission heretofore granted on July 2, 1947, contained in Investment Company Act Release No. 1077) by not more than five senior officers. It now proposes, if its application is granted, to permit, in addition, three junior officers to have access to the securities in its vault provided that these junior officers shall have access only when accompanied by one or more senior officers.

Such access by three additional junior officers is prohibited unless an exemption from Rule N-17F-2 (d) is granted by the Commission pursuant to section 6 (c) of the act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Bankers avers that the exemption will be of great practical help to it because it will insure the presence of designated persons at all times without interfering with the duties of two senior officers. Bankers also avers that the safeguards contemplated by the other provisions of Rule N-17F-2 have been and are being complied with and that such safeguards will apply to the three junior officers equally and to the same extent as they apply to the five senior officers.

All interested persons are referred to said application which is on file at the Washington, D. C., office of this Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time after March 16, 1950, unless prior thereto a hearing on the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than March 14, 1950, at 5:30 p. m., e. s. t., submit in writing to the Commission his views or any additional fact bearing upon the application or the desirability of a hearing thereon or request the Commission, in writing, that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, No. 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.
